Independent Auditors' Report

To the Board of Directors
Town of Carefree, Arizona – Utilities Community Facilities District
Carefree, Arizona

Report on the Financial Statements

We have audited the accompanying financial statements of the Town of Carefree, Arizona, Utilities Community Facilities District (the District), a component unit of the Town of Carefree, Arizona, as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the District as of June 30, 2016, and the respective changes in financial position and cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Report on Summarized Comparative Information

We have previously audited the District's financial statements for the fiscal year ended June 30, 2015, and our report dated September 9, 2015, expressed an unmodified opinion on those audited financial statements. In our opinion, the summarized comparative information presented herein as of and for the fiscal year ended June 30, 2015, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Required Supplementary Information

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historic context. Our opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 10, 2016, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

TOWN OF CAREFREE, ARIZONA
UTILITIES COMMUNITY FACILITIES DISTRICT
Notes to the Financial Statements
June 30, 2016

NOTE 1. Summary of Significant Accounting Policies

The accompanying financial statements of The Town of Carefree, Arizona – Utilities Community Facilities District (District), a component unit of The Town of Carefree, Arizona, have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board and is a component unit of The Town of Carefree, Arizona.

Reporting Entity

The District was created by the Town of Carefree, Arizona (Town) as a special purpose community facilities district pursuant to state law in July 1998. The District provides water utility services for most of the Town and the surrounding areas.

The District is governed by the Town of Carefree’s Town Council. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government’s operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the financial statements to emphasize that it is legally separate from the government. The District currently has no component units.

Basis of Presentation and Accounting

Proprietary Funds are accounted for using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. The District reports all capital assets in the statement of net position and reports depreciation expense in the statement of revenues, expenses, and changes in net position. The net position of the District is broken down into three categories: 1) net investment in capital assets, 2) restricted, and 3) unrestricted. Proprietary fund type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net position.

Proprietary funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The accrual basis of accounting is utilized by proprietary fund types. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

TOWN OF CAREFREE, ARIZONA
UTILITIES COMMUNITY FACILITIES DISTRICT
Notes to the Financial Statements
June 30, 2016

NOTE 1. Summary of Significant Accounting Policies, Continued

Proprietary funds distinguish operating revenues and expenses from non-operating items, operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. The principal operating revenues of the District's proprietary fund are charges for customer services which consist of water charges and related installation, delivery and servicing charges. Operating expenses for proprietary funds include the cost of services and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Budgets and Budgetary Accounting

The District is not required to adopt an annual appropriated budget but does, however, adopt a budget for management purposes on the modified accrual basis of accounting. Therefore, no budgetary comparison is required.

Deposits and Investments

For purposes of the statement of cash flows, the District considers all highly liquid investments with original maturities of three months or less to be cash equivalents.

State statutes authorize the District to invest in obligations of the U.S. Treasury, interest bearing savings accounts or certificates of deposit insured by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation, repurchase agreements and the State Treasurer's Local Government Investment Pool Investments are stated at fair value. The fair value of each share in the Local Government Investment Pool is equal to \$1.

Accounts Receivable

Accounts receivable are uncollateralized customer obligations, due under normal trade terms, requiring payment within 30 days from the invoice date. Interest on accounts receivable is recognized as income when billed. Accounts receivable are stated at the amount billed to the customer. Payments of accounts receivable are allocated to the specific invoices identified on a customer's bill or, if unspecified, are applied to the earliest unpaid invoices.

The carrying amount of accounts receivable may be reduced by a valuation allowance that reflects management's best estimate of uncollectible amounts. Management reviews all accounts receivable balances monthly, and based on an assessment of creditworthiness, estimates of the portion, if any, of the balances that will not be collected. Due to the nature of the accounts receivable, management does not consider an allowance for uncollectible accounts receivable necessary or material. Therefore, no allowance for uncollectible accounts receivable is presented.

Restricted Assets

Certain proceeds of the District's bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants.

TOWN OF CAREFREE, ARIZONA
UTILITIES COMMUNITY FACILITIES DISTRICT
Notes to the Financial Statements
June 30, 2016

NOTE 1. Summary of Significant Accounting Policies, Continued

Inventory

Materials and supplies inventory consists principally of spare parts that are recorded when purchased and expensed when used and are stated at the lower of cost (first-in, first-out) or market.

Capital Assets

The accounting and reporting treatment applied to capital assets associated with a fund are determined by its measurement focus. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

All property and equipment are valued at historical cost. Donated capital assets are valued at their estimated fair value on the date donated. The District has set the capitalization threshold for reporting capital assets at \$1,000 and infrastructure at \$5,000.

Depreciation of all exhaustible fixed assets used by proprietary funds is charged as an expense against operations. The District uses the straight-line method of depreciation for all fixed assets over estimated useful lives of 28-50 years for water system facilities and 7-28 years for equipment.

Goodwill

Goodwill is determined based upon the excess of the purchase price over the fair value of the net position being acquired. For the year ended June 30, 2016, goodwill is amortized using the straight-line method over the estimated useful life of the respective assets.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. The District has no items that qualify for reporting in this category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has no items, which arises only under a modified accrual basis of accounting, that qualify for reporting in this category.

TOWN OF CAREFREE, ARIZONA
UTILITIES COMMUNITY FACILITIES DISTRICT
Notes to the Financial Statements
June 30, 2016

NOTE 1. Summary of Significant Accounting Policies, Continued

Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government’s policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Capital Contributions

Transmission and distribution system assets contributed to the District by installers are capitalized at the installers’ costs, which approximates fair value at the time of contribution.

Compensated Absences

The District’s personnel policies allow for accumulation of vacation and personal leave time at defined rates based on years of service. Employees can accrue up to a maximum of 320 hours. Upon employee termination, the District will pay out unused annual leave.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Prior Year Summarized Comparative Information

The financial statements include certain prior-year summarized comparative information in total, but does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the District’s financial statements for the year ended June 30, 2015, from which the summarized information was derived.

TOWN OF CAREFREE, ARIZONA
UTILITIES COMMUNITY FACILITIES DISTRICT
Notes to the Financial Statements
June 30, 2016

NOTE 2. Deposits and Investments

Deposits

Cash and cash equivalents are made up of deposits in the bank and a debt service reserve fund. Total cash and cash equivalents at June 30, 2016 were \$1,514,104.

Bank Reserves

The bank trust fund represents a reserve required under the terms of the District's bond indenture. The reserve is comprised of proceeds of bond sales and is required to be held by a trustee and is therefore considered restricted funds. These funds are invested by the trustee in highly liquid investments, as governed by state statutes. At June 30, 2016, the restricted reserves held at the bank were \$207,172. The additional \$20,823 in restricted cash represents customer deposits.

Cash and cash equivalents at June 30 consisted of the following:

Cash and cash equivalents	\$ 1,286,109
Restricted cash and cash equivalents	<u>227,995</u>
Total	<u><u>\$ 1,514,104</u></u>

Custodial Credit Risk

For deposits this is the risk that in the event of a bank failure, the government's deposit may not be returned to it. At June 30, 2016 cash on hand was \$180 and the carrying amount of the District's deposits was \$1,513,923. As of June 30, 2016, \$33,130 of the District's bank balance of \$1,582,559 was exposed to custodial credit risk because it was uninsured and uncollateralized.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy limits the District's investment portfolio to maturities of five years or less. The District currently does not have any investments with a maturity greater than 1 year.

Credit Risk

The District is authorized by the Town Code, resolution and Trust Agreements to invest idle funds in obligations of the United States Government or its agencies, collateralized mortgage obligations and pass-through securities, federally insured certificates of deposit in eligible depositories, fully collateralized repurchase agreements, mutual funds consisting of the foregoing and the State Treasurer's local Government Investment Pool.

Notes to the Financial Statements
June 30, 2016

NOTE 5. Long-Term Debt

The following is a summary of changes in long-term obligations for the fiscal year ended June 30, 2016:

	Balance 6/30/2015	Additions	Retirements	Balance 6/30/2016	Current Portion
Bond payable	\$ 1,266,755	\$ -	\$ (331,368)	\$ 935,387	\$ 354,970
Capital lease	2,350,233	-	(159,304)	2,190,929	153,447
Capital advance	3,217,354	-	-	3,217,354	-
Other liabilities:					
Developer payable	84,761	-	(84,761)	-	-
Accrued compensated absences	29,344	8,311	(14,672)	22,983	22,983
Total long-term debt	<u>\$ 6,948,447</u>	<u>\$ 8,311</u>	<u>\$ (590,105)</u>	<u>\$ 6,366,653</u>	<u>\$ 531,400</u>

Bond Payable

The District's Revenue Bonds Series 1998 has a fixed interest rate of 7%, semiannual payments of \$207,171, and matures July 2018. Debt service requirements on bonds payable to maturity are as follows:

Fiscal Year Ending	Principal	Interest
2017	\$ 354,970	\$ 59,372
2018	380,252	34,089
2019	200,165	7,006
Total	<u>\$ 935,387</u>	<u>\$ 100,467</u>

Capital Lease

The District has entered into a lease agreement with the Town of Carefree as lessee for financing the acquisition of water tanks and related infrastructure. The lease commenced on July 1, 2005 with a stated interest rate of 3.75% and semi-annual payments until 2027. The lease agreement qualifies as capital lease for accounting purposes and, therefore, has been recorded at the present value of their future minimum lease payments as of the inception date.

Asset	
Water tank and related infrastructure	\$ 3,762,395
Less: accumulated depreciation	<u>(1,693,078)</u>
Total	<u>\$ 2,069,317</u>

NOTE 5. Long-Term Debt, Continued

Developer Payable

The District has entered into an agreement with a developer, whereby the developer advanced the District funds to install water lines to two properties. This advance will be repaid to the developer in the amount of 10% of gross annual revenues from water services to each customer within the service properties. This agreement is scheduled to end in August 2036, however if the developer has not been paid in full at that time the district will pay the remainder in one lump sum. In the fiscal year 2016, the total amount owed to the developer was written off because the developer has been dissolved and no longer has a legal claim to the money.

NOTE 6. Retirement Plan

The District and its employees participate in a Simple Individual Retirement Account. The District's share of contributions is a matching of the employee's contribution up to three percent (3%) for the years ended June 30, 2016, 2015, and 2014. The District withholds the employee's contribution through payroll deductions and remits it along with the matching contribution to a third party on behalf of the employee. The Simple IRA belongs to the employee and is fully vested at the time the third party credits the receipt of the contribution. Matching contributions made by the District for the fiscal years ended June 30, 2016, 2015 and 2014 were \$44,277; \$47,652; and \$57,918; respectively.

NOTE 7. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omission; injuries to employees; and natural disasters for which it carries commercial insurance. The District also carries commercial insurance for all other risks of loss, including workers' compensation, and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past four fiscal years.

OTHER COMMUNICATIONS FROM INDEPENDENT AUDITORS

This page intentionally left blank

**Independent Auditors' Report on Internal Control over
Financial Reporting and on Compliance and Other
Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

To the Board of Directors
Town of Carefree, Arizona - Utilities Community Facilities District
Carefree, Arizona

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Town of Carefree, Arizona – Utilities Community Facilities District (the District), as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated October 10, 2016.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
